FOR IMMEDIATE RELEASE:

**Sherri Christian of Chardon, OH is drawn as winner
of a Toshiba 32" LCD Flat Screen TV in
EcoWater / Servisoft's TV Giveaway Sweepstakes!**

Burton, OH (September 17, 2008) – In a drawing held on September 15th, Sherri Christian's entry was drawn as the winner of a Toshiba 32" LCD Flat Screen TV. This summer EcoWater / Servisoft displayed the TV and received entries at each of the County Fairs, local festivals and events in which they participated. Several people signed up and Sherri's name was randomly drawn from all of the entries.

John Woodard, EcoWater / Servisoft Manager of Sales and Marketing, stated, "In the past we have participated in EcoWater System's national *Soft Life Sweepstakes* that gives away a new Ford Mustang each year. In fact three years ago the national winner registered with us at the Geauga County Fair. This year we thought it would be more fun and exciting to have a sweepstakes that ensured a local winner and do something for our local community." He went on to say, "Purchasing the TV from a local independent business owner and being able to give it to someone from our community was well worth it as Sherri was obviously very excited to win."

Family owned and operated, EcoWater / Servisoft of Middlefield, Inc. is a residential and commercial water treatment specialist with 43 years of experience improving water quality. For more information, visit www.ecowaterservisoft.com
